Author Registration

To begin registration, visit the [registration form](#).

- Your username must be unique and cannot be changed.
- arXiv registration also asks for the following information:
 - Your name
 - Organization affiliation
 - Email affiliated with the organization
 - If you are unaffiliated you may enter "Independent" as your organization.
- Select which archives you are most likely to submit to. This will filter the category options available if you submit an article in the future.
- We will then verify the email for your account.
- Please [review account related policies](#).

Account Password

Account password requirements:

- 8 characters or more in length
- May contain uppercase letters, lowercase letters, and numbers

- Must contain at least one underscore (_)
- May not contain any other special characters besides underscore. No other punctuation or symbols are allowed (e.g., \$, ., -, @)

A successful password format could be: “Pass_Word_123” or “pAssWoRd_123”

As with all passwords, we recommend that you keep yours safe. The password can be changed from your [personal information page](#). If you forget your password, you can [recover your password](#) using your registered email address.

Email

If you need to change your preferred email address, for example because you have changed institutions, then you should visit the [email change form](#). This will ask for your new email address and will send an email with a verification code to your new address to make sure that your new address is correct.

Please allow up to an hour for delivery of the verification code before requesting a new one. If you try two times and still have not received a verification code, or your verification code does not work, please contact [arXiv user support](#).
